

Audit File Reviewer and Technical Consultant (full or part time)

Company

Insight Training is a privately owned company, formed in 2014. We provide financial reporting, auditing and practice assurance technical training alongside financial and commercial awareness and business skills training throughout the UK. We are currently a team of four based in locations around the UK, with a wider team of associate trainers employed on a freelance basis.

Location

With a rapidly growing portfolio of clients, we're currently looking for an Audit File Reviewer and Technical Consultant to join our team. The role will involve travel to clients across the UK. When you are not working at client premises, you will be home based. Travel to and from clients is part of the role and you may occasionally have to stay away from home. However, an increasing number of reviews can be conducted remotely

Our client base is a mixture of small to medium firms of accountants, industry clients and clients within the banking sector.

Role

Key responsibilities include:

- Performing audit file reviews (cold and hot) which are carried out remotely and onsite.
- Answering ad hoc technical queries on auditing and financial reporting (UK GAAP and IFRS).
- Researching emerging technical areas and writing training materials for use by the wider Insight Training team.

The role is broad in scope, and you will be fully supported. There are plenty of opportunities to grow and develop within the business in various areas, depending on your skill set and areas of interest. These might include developing a technical specialism or broader facilitation and coaching skills.

The Successful Applicant

The successful applicant will be a confident, enthusiastic self-motivated individual with the experience and desire to play an important role in a small and growing business. You will:

- Be ACA/ACCA qualified
- Have previous experience of working on and reviewing external audits
- Have good technical knowledge of Auditing and Financial Reporting standards
- Have the confidence and professionalism to establish credibility with clients
- Be imaginative and pro-active in your approach
- Have excellent communication skills
- Be very well organised and experienced in managing your own work schedule
- Enjoy creativity and be willing and confident to share your ideas

You will require a high level of autonomy and self-motivation and be willing to travel to our clients. You will be in regular contact with the Directors and the rest of the team on a day-to-day basis. You will work either full or part time, working either out at clients or from home.

A current UK driving licence is essential, and car advantageous, for the role, as is the ability to work flexibly.
